Hi Doug,

Just an FYI that we have completed our CAS 3R review for the Issaquah HS & ES 17 project.

All of our comments have been addressed and closed out.

The document is in word processing being processed / finalized & filed. Hope to have it to you by the EOB today.

Cheers!

Todd,

While we don't have a response letter I have provided the history of the reviews (MUP). Note that 1R is the first submittal, 2R the 2<sup>nd</sup> and 3R the third. Additionally, I have included the Civil Plans because they have now identified steep slopes and the proposed plan of action. Please let me know if you aren't able to proceed efficiently with the information provided. Note that only those on this email will be able to access the linked files.

Doug,

Could you send me the new geotechnical report and the comment response form? There aren't any links to the BB session below, and it would be easier if I just had the new report and the applicants responses to our comments.

Thanks,

Todd, is this something you can address while Konrad is out?

Konrad,

Just wanted to make sure that you are aware that an updated geotechnical report has been uploaded for review. This project has a tight time line since this is a second review is it possible to review within one week?

FYI see traffic and geotech materials added. I think the traffic ones are the same things sent to Transpo already.

Is Jon's email official enough to send to ISD to address, or do we need a more formal letter from them detailing what information is necessary to approve the traffic report?

Hey Cristina,

Just wanted to give you a heads up that I added the following files into the BB session and V:drive for SDP20-00001:

A screenshot of an email interface showing three attachments. Each attachment is preceded by a small icon of a document with a magnifying glass. The text for each attachment is: 'erics: Added 'SDP20-00001\_3R\_Geotechnical-Report\_2021-06-23.pdf'', 'erics: Added 'SDP20-00001\_3R\_Traffic-Calming-Memorandum\_2021-06-23.pdf'', and 'erics: Added 'SDP20-00001\_3R\_Updated-Traffic-Analysis-Memorandum\_2021-06-23.pdf''.
